The Company insures on equitable terms, and at a fixed premium, every description of property. The Company is solely and exclusively responsible for losses occasioned by fire which may be suffered by insured parties.

The Insurance may be effected for periods ranging from one month to ten years. The total premium is payable in advance, in cases where the Insurance is effected for a term of one year or less; and annually where the term exceeds one year. In terms of from 5 to 10 years, payment in advance of 5 years premium, entitles the Insured to the reimbursement of one year's premium: or in other words the Company will only charge the premium corresponding to four years.

Payment in advance of ten year's premium entitles the Insured to the reimbursement of two year's premium; with a further abatement of 10 p: cent: on the premium corresponding to the term of eight years: that is he will only be charged with the amount of eight year's premiums—less 10 p. cent.

The Company furnishes guarantees of the highest character, from the fact of there being no other Fire Insurance Company, at a fixed premium, having its head residence in the Argentine Republic; and also from the circunstance of its large capital.

The Company's funds are deposited in the Provincial Bank.

Further particulars will be furnished on application at the Company's Offices. 93 xp n16

ENGLAND.

London, Feb. 5, 1868.

Mr. Bright delivered a speech on Ireland last night, at Birmingham. There has rarely been a more exhaustive treatment of the subject. The speech of Lord Stanley at Bristol was commented on by Mr. Bright as affording abundant evidence of the utter want of statesmanship in the Ministry in their ideas as to Ireland. The question had, he said, got beyond the resistance of the Tories and the tinkering of the Whigs. Then, in a lucid manner, Mr. Bright described how he would have the Established Church abolished in Ireland, and religious supremacy banished from the land; and how by judicious measures he would create a farmer proprietary in Ireland instead of the present ownership of the land by absentee landlords. The speech cannot fail to be effectual for good.

The examinations before the magistrate in the Clerkenwell explosion case will probably soon be concluded. Yesterday, Mr. Giffard announced that he should offer no more evidence for the Crown, and the case was remanded for a week, simply to ensure the attendance of witnesses who are to be bound over for the trial. Most of the evidence given yesterday concerned the identification of Barratt, who, a few hours after the explosion, was seen drinking with Mullany in a public house. No witness identified O'Neill, and Mullany, the informer, declares that he knows nothing of Allen. O'Keefe seems to treat the investigation as a huge joke, and, instead of paying attention to the proceedings, he laughs at the eccentricities of the people in court. The rest of the prisoners do not show so fine a perception of the ludicrous. It will be a relief to have done with all the Fenian investigations, if only because they smell so unpleasantly of beer. At almost every examination of London Fenians we have had to wade through oceans of pots of sixpenny stout put in as evidence. All things Fenian seem to have begun and ended in the public-house—a plot is hatched in one Corner Pin and its execution celebrated in another. A philosophic teetotaller once lamented the inconsistency of man with respect to this and other beverages. He drinks because he is sorry, he drinks because he is glad, he wishes success to a friend, or confusion to an enemy in deep draughts. The Fenian trouble has furnished many another example of the accuracy of the philosopher's observation

There was a great meeting in the St. James's Hall last evening to hear a lecture by Mr. Stansfeld, M.P., on the "Political Future of the Working Classes." Mr. Standsfeld's lecture was thoroughly interesting. Among other suggestions which he made was one that the working classes should send members of their own order into Parliament. The lecture was one of a series given under the auspices of the Reform League.

His Royal Highness Prince Leopold, who is at present resinding with her Majesty the Queen at Osborne, has been suffering from a severe illness. which at one time created much alarm in the Royal Family. The prince has been attended by Dr. Jenner and Dr. Page. At one crisis in the prince's illness the case is understood to have been considered almost hopeless, but the latest accounts speak of a gradual improvement in his Royal Highness's health.

SCOTLAND.

Edinburgh, 3rd Feb.

A meeting called by the Lord Provost, of the inhabitants of this city and others interested in securing adequate representation for Scotland in the House of Commons, was held in the Music-hall to-night. The meeting was largely attended. The first resolution, which affirmed that the share of representation assigned to Scotland, in proportion to other divisions of the kingdom, whether viewed with reference to their respective population or their contributions to the Imperial Revenue, is much too small, was proposed by Mr. D. M'Laren, M.P. Other resolutions in support of the object of the meeting and demanding 15 additional members for Scotland were also passed, and the Lord-Provost was authorized to sign on behalf of the meeting a petition embodying the resolutions, It was also resolved that copies of the resolutions should be sent to the counties and boroughs in Scotland for support.

IRELAND.

Dublin, 5th Feb.

A meeting of the members of the Protestant Defence Association took place to-day. The attendance was very large. The Earl of Bandon presided. Resolutions were adopted in support of the constitution and the church, and expressing attachment to the Queen. The speakers included Lord Bandon, Lord Downshire, Lord Enniskillen, Lord Erne, Lord Huntingdon, Lord Bective, and Sir B. Guinness.

The Cork correspondent of the *Standard* telegraphs—A Fenian plot to attack Macroom Castle and seize militia arms there deposited was defeated at the moment an armed band was about to make the assault. The police having suddenly arrested two of the insurgents acting as scouts, they alarmed the main body, which dispersed. At the time the attack was to have been made the telegraph wires with this city were cut

THE ABYSSINIAN EXPEDITION.

Sir S. Northcote has received the following telegram from Sir Robert Napier, dated Koomagloo, January 25:—

"Cart road to Senafé open. 114 carts with supplies proceed to-morrow up to the Loroo Pass towards Senafé. The most friendly relations are being established with Prince Kassai. An advance force will proceed immediately towards Antola. The shell batteries will be moved to the front. One shell battery will accompany the advance troops. All well."

We have also received the following telegram from our Special Correspondent with the Abyssinian Expedition, dated January 28, and forwarded from Alexandria, February 1, 12.10 p.m.:—

"Sir Robert Napier has started for the front.

"A brigade of all arms advances to-morrow from Senafé on Antalo."

FRANCE.

Paris, Feb. 3.

The debate on the Bill on the Press was continued to-day in the Legislative Body.

M. Ollivier developed his amendment, which was opposed by M. Nogent St. Laurens, and rejected, as was also that of M. Bethmont.

The first paragraph of the Bill will come on for discussion to morrow.

The *Patrie* and the *France* refuse to believe that the Bill on the Press will be withdrawn. The latter calculates that about 170 will vote for the bill, and 60 against it.

The *Presse* asserts that the Minister of the Interior declared to-day in presence of several Deputies that the Bill will not be withdrawn.

The Privy Council met again yesterday.

Feb. 4.

The *Moniteur* of this morning publishes a decree promulgating the law on the reorganisation of the army.

A meeting of the shareholders of the Credit Mobilier has been convoked for the 20th.

It is stated in a Paris letter that any ill-feeling which existed against the French Army Bill is now nearly forgotten, and that this change of public sentiment is mainly attributable to an important document lately published with Imperial sanction, which went far towards the correction of certain mis-statements and exaggerations, and the improvement of public feeling in the provinces. It is said that the Government is perfectly satisfied with the view which the nation takes of the bill, and the determined tone of M. Rouher in the Legislative Chamber sets aside all preconceived notion of the intention of the Government to abandon the measure.

ITALY.

Florence, Feb. 3.

The *Nazione* of this evening publishes a semi-official communication positively contradicting the assertions of modifications of the September Convention, or the conclusion of a new treaty between France and Italy. The *Nazione* says:—

"It is not known at the present moment how or with what probability of success negotiations could be undertaken on the Roman question, unless upon the basis of the September Convention. After the late events the return of the state of affairs created by the Convention would be the sole policy advantageous to the country without compromising the future. We believe that the Cabinet are unanimous in this opinion.,'

Florence, Feb. 4.

It is announced that the Franco-Italian convention regulating the share of both Governments in the expenses of Mount Cenis tunnel was signed yesterday.

Rome, Feb. 5.

The French transports Orenoque and Albatross have left Civita Vecchia for France with a squadron of cavalry.

The official journal publishes a report filling 20 columns, addressed by General Hanzler to the Pope, relative to the Garibaldian invasion. The report commences at the departure of the French troops in 1866, and finishes with the battle of Mentana.

PRUSSIA,

Berlin, Feb. 4 Evening,

The Chamber of Deputies discussed to-day the proposal of Government to establish a special fund for the province of Hanover, by placing the former royal domanial fund at the disposal of the Hanoverian Provincial Estates for provincial purposes.

Count Bismark said—The Government have introduced this bill with the view of preparing the way for a great extension of the system of administrative decentralisation. The Government entertains, with the sanction of the King, the same intentions as regards the other provinces, and intended even to devote a portion of the budget to their special benefit. The Government firmly maintains the proposal to establish a provincial fund for Hanover.

The French ambassador at Berlin, on presenting his credentials as the representative of France to the North Germain Confederation, was highly complimented by the King of Prussia, who said he beheld in the appointment of the ambassador a pledge of friendly relations between the two Governments.

SPAIN.

Madrid, Feb. 1.

The laws relating to the rural gendarmerie and to the extraodinary credit granted to the Government for the conversion of rifles have been promulgated to-day.

Royal decrees are also issued suspending the present Spanish Minister at Belgium, and appointing Señor Jabat, Under-Secretary for Foreign Affairs, to the vacant post. Count Xiquena succeeds Señor Jabat as Under-Secretary for Foreign Affairs.

February 2.

The *Official Gazette* of to-day publishes the return of the first half-yearly revenue for the current Budget.

In the taxes and town dues throughout the peninsula there is an increase of 404,398 crowns, and in the duties on imports an increase of 63,404 crowns.

Gibraltar, Jan. 27.

The sufferings of the poor in the neighbourhood of Tangiers and Tetuan from scarcity of food are daily increasing. The offal of the markets and the refuse leaves of vegetables are eagerly consumed to stay the pangs of hunger. The better classes of society are liberal in their donations, but cannot meet the demands of the thousands of starving poor.

Madrid, Feb. 5.

Advices received here confirm the report that cholera has broken out at Tangiers.

SWITZERLAND.

Berne, Feb. 5.

General von Roeder, the Prussian minister to this Government, will have an audience of the President of the Swiss Confederation to-morrow, in order to present his credentials as representative of the North German Bund.

According to Cretan intelligence, received through Greek sources, serious engagements have taken place between the Turks and the Cretan insurgents, in which the latter were victorious.

AMERICA.

Washington, Feb. 1.

Congress has passed a new Bill respecting the abolition of the cotton-tax. It repeals the internal tax on cotton immediately, and removes the duty on the importation of foreign cotton after the 1st of November next.

EDITOR'S TABLE.

A telegram from Montevideo announces that Colonel Fortunato Flores had returned from Rio Janeyro in one of the steamers just arrived. The Montevidean Government forbade his landing, and sent a guard to watch him. It seems to be still uncertain if Sr. Bustamante will accept the post of Minister of Finance.

The storm which occurred on the night of the 3d inst., caused much damage to the shipping in the harbor of Montevideo.

The 'Siglo' of that city, which is almost the only paper that dedicates its columns to serious economical questions, suggests in answer to an article which lately appeared in the 'Telegrafo,' that the Government should pass a decree putting an end to the forced currency after the 1st of June, and appoint a committee, 'ad hoc,' composed of competent persons in commercial and political circles, to consider the question generally of private banks of issue.

On this subject we recommend to our English readers an article in a late number of 'Frazer,' by Mr. Bonamy Price. We only call attention to it, as it contains a summary of the opinions of the two leading French economists, M. M. Chevalier and Wolowski, who are now engaged in a paper war on the same question. M. Chevalier is an advocate of free banking; M. Wolowski, of one national bank of issue, more or less like the Bank of England and of France.

We regret to see in the accounts from Bragado that, owing to the mortality among the peons—and the cholera still lingers in the district—much of the wheat crop has been lost for want of hands to gather it. The same complaints come from Chivilcoy and along the coast of the Parana. Added to the pestilence, sufficient evil had already been occasioned by dragging the native peones to the war. The consequence is, that flour has risen at this port in a very few days from $30 or $34 to $48 and $50 per ar., and wheat in proportion, without much chance of early supplies arriving, as breadstuffs are at a high figure in Chile, and there is a demand for England.

The general meeting of the subscribers to the British Hospital was held yesterday at the Consulate. Owing to the small attendance and the great importance of the business to be transacted, it was proposed that the annual report be published in the 'Standard,' to appear on Sunday, 15th inst., and on the Monday following a general meeting will be convened at the Consulate at noon, for the purpose of discussing said Report, and to devise means of relieving that valuable Institution from its present difficulties. It is specially requested that all subscribers and friends of the Institution will attend.

We publish in to-day's paper a letter from Concordia, of very startling interest, if the circumstances related be anything near the truth. We all believe that General Urquiza is wiser than his subordinates, and means to keep quiet, but we cannot close our eyes to the facts that more than one attempt has been made lately by the Blancos in Entre Rios to revolutionise the Banda Oriental, and that in another direction, in Santa Fé, there are mysterious influences, and even openly seditious proclamations, working for apparently deeper ends than electioneering purposes.

It is with unfeigned pleasure that we have seen published a note addressed by the President of the Municipality to the Provincial Government on the subject of a city water supply and drainage. Sr. Cazon, in the above note, calls the attention of Government to the pressing necessity of adopting some of the many projects presented, and urges it to obtain from the Legislature a resolution concerning them, saying in conclusion that the Municipal Corporation is anxious to avoid the responsibility that is made to weigh upon it for allowing this important matter to remain undecided. We scarcely expected that our remarks a few days back on this subject would have so soon produced so pleasing a result; but we do sincerely applaud Sr. Cazon and his colleagues for the action taken by them, and assure them that if they will only persevere in the good work thus begun, they can count upon our most unqualified support and will justly deserve the gratitude of their fellow-citizens.

In their last sitting the Municipality decreed the lighting by gas of 100 squares more in the suburbs of the city, for which all the necessary arrangements with the Gas Company have been satisfactorily concluded. It also resolved to enforce strictly the ordinance issued by the Board of Health against the committing a nuisance in the streets and public squares; but, at the same time, it is absolutely necessary to place public conveniences in several localities.

In an article on the rise in the price of gold in the *Telegrafo*, of Montevideo, the author endeavors to show that on the 31st of January the authorised circulation of notes of the seven banks of that city was $16,874,550, whereas only $9,345,933 were in actual circulation, from which amount has to be deducted sums in deposit—not less than 3 millions, leaving $6,945,933, which is $2,400,920 less than the amount in circulation on the 30th November. The capital of the seven banks, the author says, amounts to $5,624,850. The circulation therefore of $9,345,933 is guaranteed by the whole assets of the banks.

In justice to the directors of the Coliseum, we reproduce in another column an article from the "Deutsche Zeitung," in answer to some Carnivalesque vagaries of our own. The very elegant personal allusions made by our German contemporary are to us quite unintelligible. The musical criticisms in the "Standard" are by various hands, and very seldom indeed by the person we presume is specially referred to in the article in question. He, at least, is scarcely aware of the existence of the German Singing Academy, has never had the honor of hearing its performances, and certainly has not to his knowledge ever written a line in its respect *pro* or *contra*. For the rest, we can safely leave the article to the appreciation of the intellectual German community. If they approve of its style, they are welcome to their own opinion. We may add that the comparison between a Dutch concert and German music was really complimentary to the latter, inasmuch as it simply meant, if the highest art is commercially unprofitable, try the other extreme. We were not aware that our German musical friends were so thin-skinned or so unmannerly.

General Urquiza has written to D. Nicasio Borges the following letter on hearing of the assassination of Gen. Flores:—

San Jose, Feb. 24, 1868.

I have received with astonishment and sincere grief the news of the death of my friend Gen. Flores, the victim of vile ingratitude on the part of his enemies whom he so generously treated.

The Oriental State has lost one of the few men, if not the only one, who could have preserved its stability, and restrained the fury of parties that his death will again provoke.

Berro has paid for the crimes and errors which have so much contributed to the late misfortunes of these countries.

Do me the favor to congratulate Olave on his brilliant behaviour. You know how I esteem that young officer, so full of hope for his country.

I regret that in your last visit you were not more communicative. Had you told me what you now inform me of, I could have taken measures to repress and punish the infamous assassins.

Yes, you are right. We who make sacrifices for our country have received a severe lesson in the fate of the patriot Gen. Flores. But do not be afraid. For my part, I profit by the warning.

Although I write a letter of condolence to 'Misia Maraquita,' visit her in my name, and say without reserve that I am at her orders.

The assassins of Flores deserve prompt vengeance.

Deeply impressed by such an event, I now limit myself to wishing you every happiness, and thanking you for your consideration for me. I beg you to keep me advised as to the situation of that country in which I have every reason to interest myself.

JUSTO J. URQUIZA.

The plan of the city and suburbs of Buenos Ayres, just published by the Topographical Department, is a work magnificently got up, and which reflects the greatest possible credit on its authors. It embraces to the south the Boca, Barracas, and the windings of the Riachuelo a little beyond Anderson's quinta and saladero, to the west it reaches a little beyond the Almagro Station of the Western Railway, and to the north it takes in the Cañitas Road as far as Borche's quinta. The chief merit of this valuable work is its wonderful accuracy. It is published in four sheets, the three first of which, thanks to the kind attention of the Topographical Department, form a most valuable addition to our Museum.

Mr. Hector Varela returned to Buenos Ayres on Friday, after an absence of one month in Montevideo, during which he has taken a prominent part in the exciting and tumultuous events which have occurred lately in the sister capital. We give a hearty welcome to our distinguished colleague and friend.

When the Tycho Brahe weighed anchor from Rio the Brazilian transport San José, which conveyed the intelligence of the passage of Humaita, had been signalled as coming in from the South with flags flying from all her masts, and the greatest excitement existed in Rio to know the news of which she was the bearer.

The "Telegrafo Maritimo" states that it is reliably informed that a force of 400 Brazilians is shortly expected to be quartered permanently in the neighbouring capital.

The constant stoppages of carts in front of our door, and in all our square, have become such an intolerable nuisance, blocking up the street for horses, and causing a most serious impediment to its traffic, that all the neighbors have joined in a petition to the Municipality to remedy the evil, by ordering that vehicles shall only be allowed to go in one direction. We trust the Municipality will not turn a deaf ear to this well-founded complaint.

We have received the first number of the 'Anales de la Sociedad Rural Argentina,' being the number corresponding to the month of January of this year. We shall take an early opportunity of reviewing at more length this important publication.

THE WAR IN THE NORTH.

We make the following extracts from an army correspondence:—

This morning, a telegraphic despatch from the Admiral announced that yesterday, at ten in the morning, the Paraguayan steamer Igurey approached Humaitá, with the intention of landing ammunition. The Lima Barros fired at her three shells, the first hitting her in the bows, the second in the poop, and the third in the centre, which having penetrated to her powder magazine, sent her flying into the air. It is supposed that the ammunition brought by the Igurey came from the new establishment and the battery of Timbó in the Chaco.

On the afternoon of the 27th ult. Laureles was attacked by land and water and taken, the garrison having fled to the 'montes,' where it was able to save itself, thanks to the great rise in the river. The Brazilian forces penetrated the redoubt, which the enemy, to the number of 200, had abandoned, leaving behind them three dead bodies and a great deal of material. The place was burnt down, the trenches destroyed, and the ditches filled up, by the Brazilians, without the loss of a single man.

This morning, for the first time after ten days, a deserter from the enemy came over to the advanced posts of General Osorio's encampment. He says that there is great sickness among the enemy—that they eat very little, and have, therefore, no strength. He confirms the fact of the explosion of a powder magazine in Humaita, but says nothing about the steamer Igurey, because he says these things are not talked of in Lopez's camp. He adds a curious piece of news, viz., that Lopez has called together all those who are good swimmers in his army, whom he intends to send to board the ironclads from the side of the Chaco. The deserter is a sergeant, who is dressed in new clothes—a red poncho and white shirt.

According to the report from the outposts there are important movements going on in the enemy's camp, which doubtless mean something. It appears that the enemy are withdrawing from their lines the field artillery, and placing in their second line heavy pieces, which would seem to indicate that they are preparing to sally forth, accompanied by a field train, supposition which is confirmed by the report that more than 100 mules have been seen collected in one spot within the trenches.

ROSARIO.

The following is an extract from one of our correspondents letters, dated 5th inst.:—

The news from the Californian Colony is flattering. The people up there want a small steamer badly, to ply to San Javier.

There still continues a great activity in our port, and a considerable quantity of American goods has arrived.

No operations in land. The English estancieros are fearfully disgusted with the robbery of their horses by the revolutionists. There is a general outcry, and many would leave the country could they sell their property. However, this is a passing storm that will soon disappear.

In Santa Fé things are by no means quiet. Aldao is recognised as Provisional Governor by the respectable people. The gaucho element, headed by their unscrupulous caudillos, are savagely determined to stick to their arms, although they conceal them. It is only the presence of the National troops that prevents a fresh outbreak. The nominating of Oroño as National Senator has maddened his potitical enemies. One of the objects of the revolution was to secure this post for a Colorado.

River very high. Business improving. We are expecting Mr. Wheelwright to-day, and Mr. Gonzales, ex. Minister of Hacienda.

IMPORTANT FROM ENTRE RIOS.

STARTLING RUMOURS.

Concordia, March 6.

As in these times of uproar and revolt people are naturally anxious to know what is going on in the different parts of the River Plate Republics, I take up my pen to let you know what the folks are doing here, with what ends everybody may judge as they please; for my part, I think that we will soon see this Province in open revolt against the Central Government—of course, aided by Corrientes and Santa Fé, to say nothing of Cordova, San Luis, 'et hoc genus omne.'

Last week a quantity of arms, ammunition arrived here from down the River (where from? you can guess). On Sunday arrived our Gefe Politico, Justo C. de Urquiza, after a prolonged absence. Just fancy, we have been very nearly two months without the Gefe, and more than one without the Juez de Paz; and precisely when he was most wanted, during the prevalence of the cholera in your city and neighbouring towns, and at the moment when the Blanco party were publicly recruiting men to assault Salto—which, as you know, failed on the 10th ult. Said arms were sent into the Province of Corrientes to the Estancia del Paraiso—which, you know, belongs to General Caceres—and a small depót remains in this town.

On Monday the Gefe Politico started 'en aparencia' for his father's estancia of Indio Muerto, but in reality with the letters he brought from San José, for Caceres. Here the Federals make no secret of their plans. The Presidential election is laughed at as a farce, and the more the laughter and satisfaction when each steamer brings the news that the Unitarios are more divided. They are only waiting in this Province, and in that of Corrientes, for a convenient opportunity; the very first reverse that the allied army suffers in Paraguay will be a signal. Already with their absurd Cordones Sanitarios they are impeding the tropas of cattle, so that the army may come to straits. The stores, hospitals, &c., of the Brazilians in Corrientes, will be destroyed—so your friend Caxias had better keep a good guard over them.

You may sneer at all I tell you, but recollect, these are the same men who planned the revolt in Montevideo, and who betted their dozens of champagne that Flores would not be alive on the 20th of February.

This port was again closed yesterday, at the hint of the Gefe Politico, who left a note, and cleared out. This is quite a political-commercial dodge. Politically, that the folks in Salto may not so easily get news of the doings of the Blancos here, and at the very first opportunity they will make another onslaught both on Salto and Paysandu. Commercially, because the trade here is owing largely to Salto, and more so than to Montevideo B. Ayres.

I would advise General Mitre to turn his eyes to the Rio Uruguay, and forget for a moment the Presidential question.

The passing of Humaita and bombardment of Asuncion, which was known here long before you received the intelligence, have only added to the general hatred of Brazil and the Unitarios, and have given a new impetus to the movement; and it is publicly "shouted" here that the time "para estar á caballo" has arrived.

Yesterday, it was known here that General Rivas had received counter orders, and was not to leave Rosario, 'por las dudas.' So you see the Federals know what is going on in the burnt house in Plaza 25 de Mayo.

No cholera, or colerina, here whatsoever; in fact, there have been only two cases 'thought' to be such, at the beginning of January. In Salto, 'it is said,' 5 daily, more or less.

Rained heavily yesterday. Camps in fine condition. Cattle fat. Novillos $6 4rls. silver; and saladeros working hard.

T. T. T,

THE COLISEUM.

GERMAN SUSCEPTIBILITY.

We are indebted to the kindness of an anonymous German friend for a translation of the following article from our contemporary the "Deutsche Zeitung" of March 5:

"We regret that we are obliged to-day to begin our review with setting to rights one of our colleagues.

"The 'Standard' has in the paper of 3rd inst. a note which probably comes from the editor G., in which this competent judge of art, who often has made himself..... with his critical attacks on the committee of the Coliseum but only to give a cunning stroke to the Deutsche Singakademie.

"It is Mr. G.'s view that the committee of the Coliseum does not take trouble enough to procure to the shareholders a good dividend; they ought to have arranged fancy balls, and better give 'a Dutch concert, that will swell the dividends than German music that wont.'

"To rectify this nonsense this may serve:

"The committee had taken steps to let the Coliseum for fancy balls, but they could not find an empresario, and this does not seem strange at all, for against the competition of the theatre balls a Coliseum ball would not have succeeded.

"Relative to the opinion of the author that the German music did not give a dividend to the Coliseum, we have only to say that the Deutsche Singakademie which only can be meant by it, is a private society, has no other purpose than to bring before its members from time to time the best works of our home masters. At the same time it has since the foundation of the Coliseum taken care to support this enterprise, in which it has also succeeded.

"The German Singakademie has from the beginning brought a profit to the Coliseum of about $30,000 m|c per annum, with which the ordinary expenses are more than covered.

"Consequently the shareholders of the Coliseum have to thank the committee for having secured to them this very important income, as likewise all friends of music have to thank the Deutsche Singakademie for having fulfilled its task to procure a hearing to real music, in spite of many drawbacks.

"Concerning the taste of Mr. G., who prefers nigger-music to all classical masterpieces, we can assure him that to all members of the Singakademie this is entirely indifferent. It cannot appear strange to us that the ass likes thistles the best."

HENRY B. WEEKS.

Cordoba, Feb. 29, 1868.

To the Editors of the *Standard*.

Gentlemen—

In the *Standard* of 22nd inst., in your "Editor's Table," we find the following paragraph:—

"The police of Rosario arrested on Wednesday a foreigner named Henry B. Wilk (ought to be Weeks), charged with some swindling transactions in Cordoba, forged cheques on the banking house of Otero y Ca."

As the foregoing paragraph might give rise to various comments, we beg to communicate to you the real facts. In September, 1866, Henry B. Weeks presented himself at our office with a letter from Messrs. Parlane, Graham y Ca., of Buenos Ayres, addressed to him, and authorising him to draw upon them for a sum of 2,500fts. We immediately applied to persons who knew the signatures of these gentlemen, and they considered them to be the real ones; consequently, we had no difficulty in taking his draft upon them for £500, agreeing to pay him $500 cash, and the balance upon receipt of the advice of his draft having been accepted. We made this exception to a person unknown to us, as he came here from Buenos Ayres with very respectable persons, and continued with them until he suddenly disappeared.

Shortly after his escape from here the draft was returned to us protested, having turned out that the letters from Messrs. Parlane, Graham y Ca. had been forged.

On the inst. we were informed by our agents in Rosario that Weeks had made his appearance there, upon which we immediately sent an order for his arrest, and, upon being inquired by the Chief of Police, he confessed the whole to be true.

By the facts above stated you will perceive that what you stated in your number of the 22nd inst. is not correct, that the said Weeks had forged cheques upon us apparently only lately, being an occurence which happened eighteen months ago, and which, at the time, created some sensation in Buenos Ayres, and caused Messrs. Parlane, Graham y Ca. to publish advertisements in the local papers, in order to save people in the interior from further swindle.

We trust, therefore, that you will be kind enough to have your statement in the *Standard* of 22nd inst. rectified.

Please excuse us for having occupied so much of your valuable time, and

Believe us, gentlemen,

Your most obedient servants.

[The above letter was sent to us without signature, but we presume it to be written by Messrs Otero & Co. We have made inquiries as to the authenticity of the information, and put our readers on their guard against the party named, H. B. Weeks.—Eds. "Standard."]

A MISSING CLERGYMAN.

The sudden and unaccountable disappearance in London of the Rev. Mr. Speke, who seems to have been spirited way without the possibility of finding any trace of him, is the great topic of comment in London, and acquires more interest from this gentleman's social position, and the fact of his being a brother to the distinguished and unfortunate discoverer of the sources of the Nile. In reference to this the following correspondence is published in the *Times*:—

"In order that your readers may be made acquainted will all the facts connected with the disappearance of the Rev. B. Speke, I trust you will favour me by inserting the following particulars:—

"Mr. Speke left Somersetshire on Wednesday, the 8th of January, by the train from Chard Station (London and South Western Railway) at eleven o'clock, taking a return ticket, and telling his groom to be waiting at the station the following evening. The object of his journey to London was to be present at the marriage of his most intimate friend the next day. The train was rather late into London, and he took a four-wheeled cab and drove to 79, Eccleston-square, the house of his brother-in-law, where he dismissed the cab, and where he remained about ten minutes talking to the footman, who had been brought up in his parish.

"Mr. Speke then went out, saying to the servant that he was going to buy a new hat, and afterwards on business to Westminster. He went to a hatter's in Warwick-street, chose a hat, and told the hatter to send it to Eccleston-square not later than 6.45, as he was going out to dinner at seven o'clock. Mr. Speke then left the shop at about 5.30, and all trace of him from there ceases.

"His intention to return to Eccleston-square is most clear. He told the servant of his dinner engagement, and he had made an appointment with a young man whom he had apprenticed in London, to call and see him at about 6.30. In perfect health, of an evenly-balanced mind, high religious character, and of a singularly cheerful and amiable disposition, he was about the last man that one would have imagined could come to harm, physically or morally; and being the only member of his family residing with his parents, and knowing how heavily recent bereavements have pressed upon them, it is incredible that he should not have communicated with his family if he had the power to do so.

"The hat he was wearing was picked up at about 7.30 p.m. on the 8th of January in the Birdcage-walk by a respectable workman, who took it home, intending to wear it, and who some days after hearing the paragraph about the missing Mr. Speke read, and seeing the same name in the hat, handed it over to the police.

"I only hope if any person read this letter who can throw the slightest light upon this mystery they will at once communicate with me. Any coachman or cabman who drove along the Birdcage-walk between six and half past seven that evening; any person who noticed two or three people assembled there, or in the parts of Westminister adjacent; any person who observed two or more dragging on apparently helping another man; in fact, any who saw anything suspicious that evening, and who will communicate with me, may possibly give the clue which will solve this distressing problem.

A CAT CASE IN THE COUNTY COURT.

At the Abergavenny County, on Thursday, Joseph Holmes sued Charles Morgan for loss alleged to have been sustained by the slaughter of two cats. The plaintiff is a fish dealer, and the defendant a butcher, and the nature of the case appears from the following particulars annexed in legal form to the summons:—"To damage and injury done to a cat belonging to the plaintiff, caught in a trap set in your slaughter house, in or near Lion-street, when the left fore leg of the said cat was broken, and to compensation in respect of the same, £1. To value of one cat belonging to the plaintiff caught and killed in the trap in the said slaughter-house, £2." The cats were named respectively Spot and Jet, and according to the evidence of the plaintiff's wife their value, and more especially that of the deceased Spot, was not to be estimated by "golden sovereigns." Legal gentlemen appeared on either side, and after a lengthy argument, and a submission of a case by the plaintiff's solicitor, the judge ruled that the cats were trespassers, and had come to their deaths by misadventure. The plaintiff was accordingly nonsuited.

In Bonds no disposition to buy, only sales 17,200 cash, at 51½, and 5,000 for 31st March, at 51⅝. The market looks weak. Some difficulty is expected in obtaining money to withdraw funds on the 31st inst. The bears predict that Bonds must fall considerably.

Exchange flatter, and will probably close weak, yet this, merchants opine, is merely to assist in enabling drawers to pass large amounts next packet at a moderate rate, say below 49d. It must be borne in mind that sales from November last have been very limited. Thus future remittances cannot be very large; the rate in May ought therefore to be higher than at present. On France, 5.08 done freely, for drawers above.

The saladeristas continue making contracts for picked cattle at 150 dollars m|c, for delivery up to the 15th June next. The season promises to be both heavy and late.

Money continues in active demand, principally for Exchange purposes. Good city paper done; preference to other documents at higher rates.

Wools in good demand; large sales.

The French steamer Aunis brought the Maua Bank £25,000 in gold.

SAVINGS BANK.

BANK MAUA AND CO.

101--Cangallo--103.

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

READ—FRY—JUDGE

Who is there that does not desire to be always exempted from Indigestion—to have a Good Appetite, a Painless Stomach, a Clear Head, a Regular Pulse, a Healthy Complexion? If this meets the eye of any who are not thus blessed, let them try
BAGLEY'S HESPERIDINA.

This delightful Tonic will restore the weakened stomach to a healthy condition; it will bring back the truant appetite, and give permanent vigor to the whole system. The feeble and emaciated, suffering from Dyspepsia or Indigestion in any form, are advised, for the sake of their own bodily and mental health and comfort, to try it.

Ladies of the most delicate constitution testify to its restorative properties. Physicians, disgusted with the adulterated liquors of commerce, describe it as the
SAFEST AND MOST RELIABLE
of all stomachics. It does not require weeks of dosing before its virtues are realised. Thousands sit down to meals void of appetite, eating because others eat. The food thus forced into the stomach does positive harm; instead of strengthening the system it engenders a variety of aliments, which end in confirmed dyspepsia. If you want to prevent all this take Bagley's Hesperidina regularly before meals. 14,1m,F6

MORISON, THE HYGEIST'S
VEGETABLE
UNIVERSAL MEDICINES,
Particularized for Every Complaint.

MORISON'S PILLS. MORISON'S POWDERS.

MORISON'S OINTMENT.

1.—These invaluable medicines being composed only of a vegetable matter, or medical herbs, and warranted, on oath, as containing not one particle of mercurial, or mineral substances all of which are uncongenial to the nature of man), are found to be perfectly harmless to the most tender age, or the weakest frame, under every stage of human suffering; the most pleasant and benign in their operation that were ever offered to the world; and, at the same time, the most certain in searching out the root of any complaint, however deep, and of performing a cure.

2.—The Medicines are comprised in three different articles only; that is, in two kinds of pills, of different strength or power, designated by No. 1 and 2—the first is an efficient but most gentle and mild aparient, or opening Medicine, detaching and partially removing the bilious humours, whilst the No. 2 pills carry off those and the serous, acrid, and putrid humours of the body, to which it is incidental.

The Vegetable Powders, again, are of great assistance, and facilitate the evacuation of bad humours; they soften, are cooling, and allay the thirst, and some doses of them throughout the day are useful in making the pills have better effect and curing sooner.

SAVINGS BANK.

BANK MAUA AND CO.

101--Cangallo--103.

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P.P. MAUA & Co.;
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

READ—THEY—JUDGE

Who is there that does not desire to be always exempted from Indigestion—to have a Good Appetite, a Painless Stomach, a Clear Head, a Regular Pulse, a Healthy Complexion? If this meets the eye of any who are not thus blessed, let them try

BAGLEY'S HESPERIDINA.

This delightful Tonic will restore the weakened stomach to a healthy condition; it will bring back the truant appetite, and give permanent vigor to the whole system. The feeble and emaciated, suffering from Dyspepsia or Indigestion in any form, are advised, for the sake of their own bodily and mental health and comfort, to try it.

Ladies of the most delicate constitution testify to its restorative properties. Physicians, disgusted with the adulterated liquors of commerce, describe it as the

SAFEST AND MOST RELIABLE

of all stomachics. It does not require weeks of dosing before its virtues are realised. Thousands sit down to meals void of appetite, eating because others eat. The food thus forced into the stomach does positive harm; instead of strengthening the system it engenders a variety of aliments, which end in confirmed dyspepsia. If you want to prevent all this take Bagley's Hesperidina regularly before meals. 14,1m,F6

MORISON, THE HYGEIST'S
VEGETABLE
UNIVERSAL MEDICINES,
Particularized for Every Complaint.

MORISON'S PILLS. MORISON'S POWDERS.

MORISON'S OINTMENT.

1.—These invaluable medicines being composed only of a vegetable matter, or medical herbs, and warranted, on oath, as containing not one particle of mercurial or mineral substances (all of which are uncongenial to the nature of man), are found to be perfectly harmless to the most tender age, or the weakest frame, under every stage of human suffering; the most pleasant and benign in their operation that were ever offered to the world; and, at the same time, the most certain in searching out the root of any complaint, however deep, and of performing a cure.

2.—The Medicines are comprised in three different articles only; that is, in two kinds of pills, of different strength or power, designated by No. 1 and 2—the first is an efficient but most gentle and mild aperient, or opening Medicine, detaching and partially removing the bilious humours, whilst the No. 2 pills carry off those and the serous, acrid, and putrid humours of the body, to which it is incidental.

The Vegetable Powders, again, are of great assistance, and facilitate the evacuation of bad humours; they soften, are cooling, and allay the thirst, and some doses of them throughout the day are useful in making the pills have better effect and curing sooner.
